### **FEEDING DIRECTIONS:**

Feed at the rate equal to 3% of the live weight of the fish in the pond or raceway, or feed once or twice per day an amount of feed the fish will clean up. Do not feed more than fish will eat in 20-30 minutes. Feed at or near the same places each day and about the same time.

Distribute feed in enough places around the lake so fish will not have to travel far to get food. Feed in 5 or 6 places in lakes of 1 to 2 acres and more stations in larger lakes. Feed at the same place each day and at the same time.

**CAUTION:** Feed is perishable. Store in a well ventilated dry area protected from rodents and insects. Feeding moldy or insect infested feed to animals may cause illness or death.
